REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: As argued in the Appeal Brief on page 8 with regards to independent claims 1, 8, and 15, the prior art does not teach "the fetch-branch unit and decode units operate in parallel, the fetch-branch unit and the decode unit (a) both receiving the same instruction(s) during a given cycle and (b) having the sequential and target instructions retrieved thereto concurrently during one of the following two cycles (Appeal Brief page 8, paragraph 2)." The prior art searched and found have taught fetching the sequential and target instructions, but not necessarily by two separate units, i.e. fetch-branch unit and decode unit, concurrently during the two cycles immediately following the cycle when a same instruction is received by the two units.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
